

HB Supplier Order Installation & User Guide

Microsoft Edge | Extension version 1.2.0

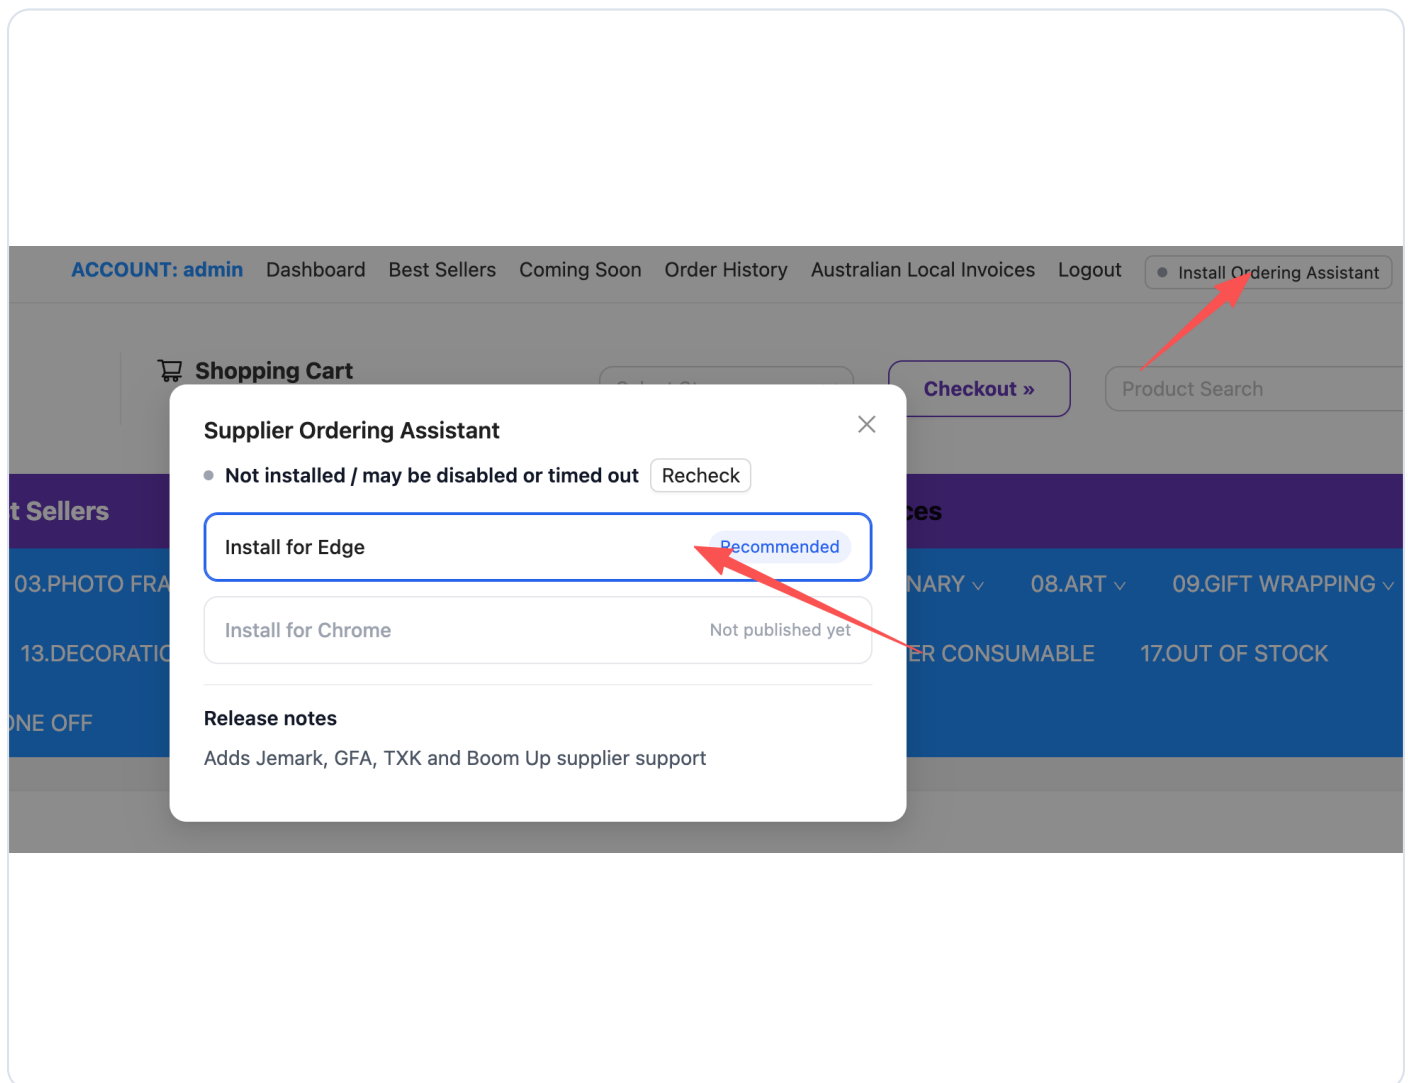

Install the ordering assistant, connect your Hot Bargain account, and view supplier item history and top-selling products directly beside supported supplier websites.

Before you begin

- Use Microsoft Edge on a desktop or laptop computer.
- Have an active hotbargain.vip username and password.
- Make sure you can sign in to the supplier website you need to use.
- Use the Remote / backend setting unless an authorised support person instructs you otherwise.

Start from Hot Bargain

Use the built-in installation entry so you are sent to the approved Edge listing.

1 Open the Hot Bargain Shop page and select Install Ordering Assistant.

2 In the Supplier Ordering Assistant window, select Install for Edge.

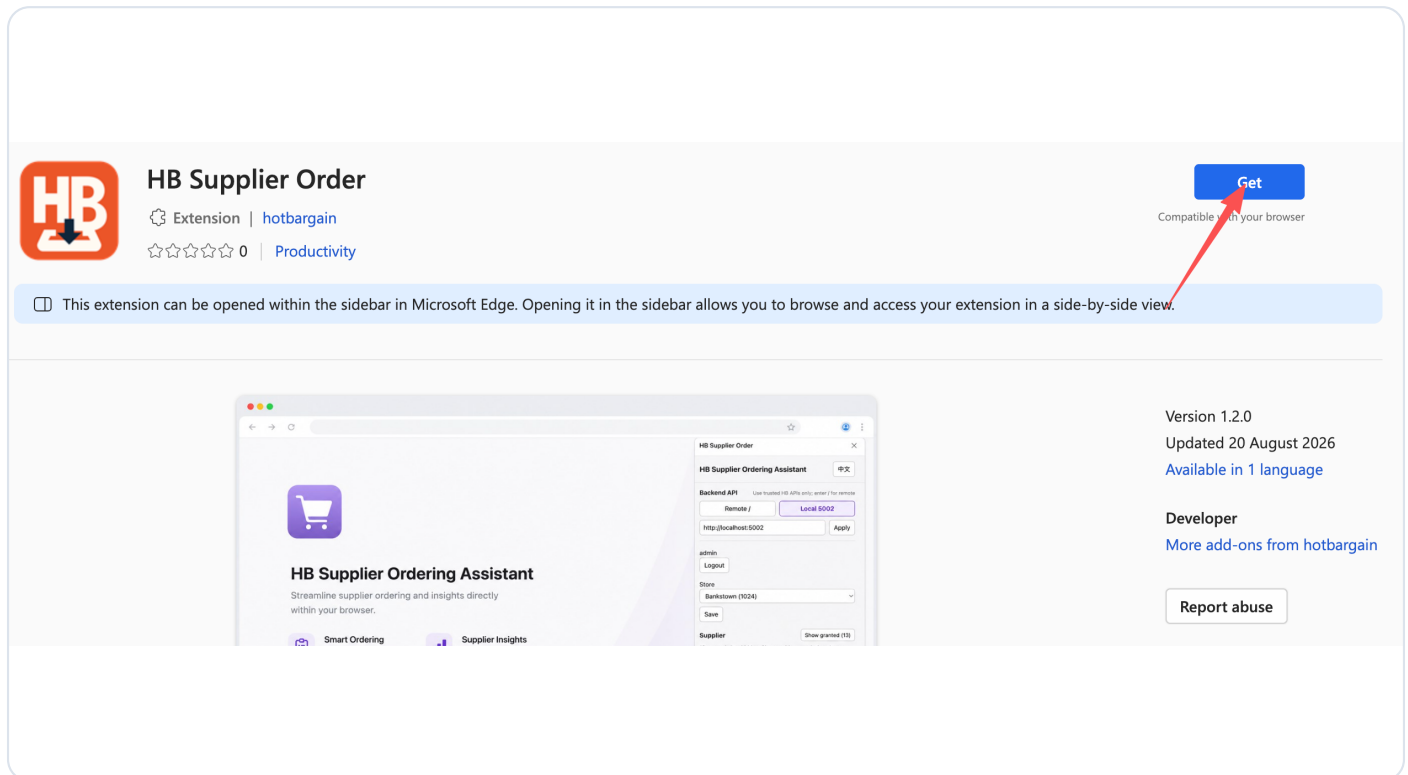

Edge is the supported installation route

The Chrome option is not published yet. Do not use unofficial extension packages or browser download sites.

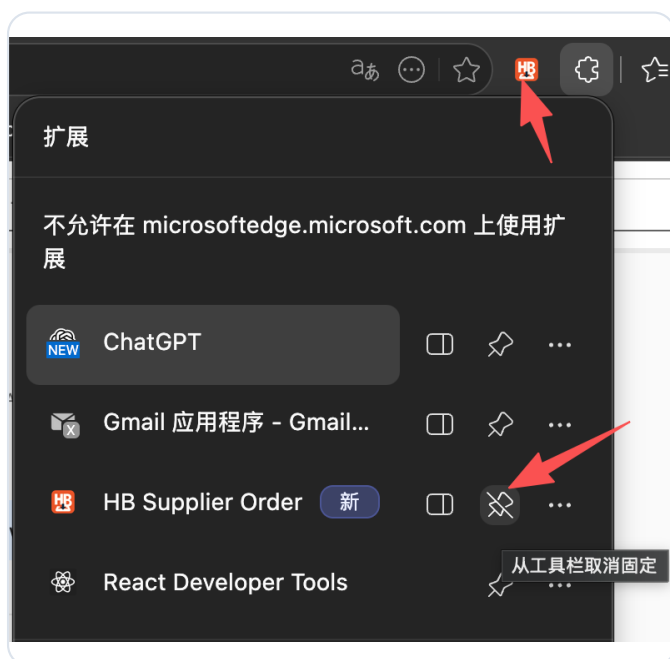

INSTALL

Add and pin the extension

Install from Microsoft Edge Add-ons, then keep the HB icon visible for quick access.

3 On the HB Supplier Order listing, select Get and confirm Add extension.

4 Pin HB Supplier Order

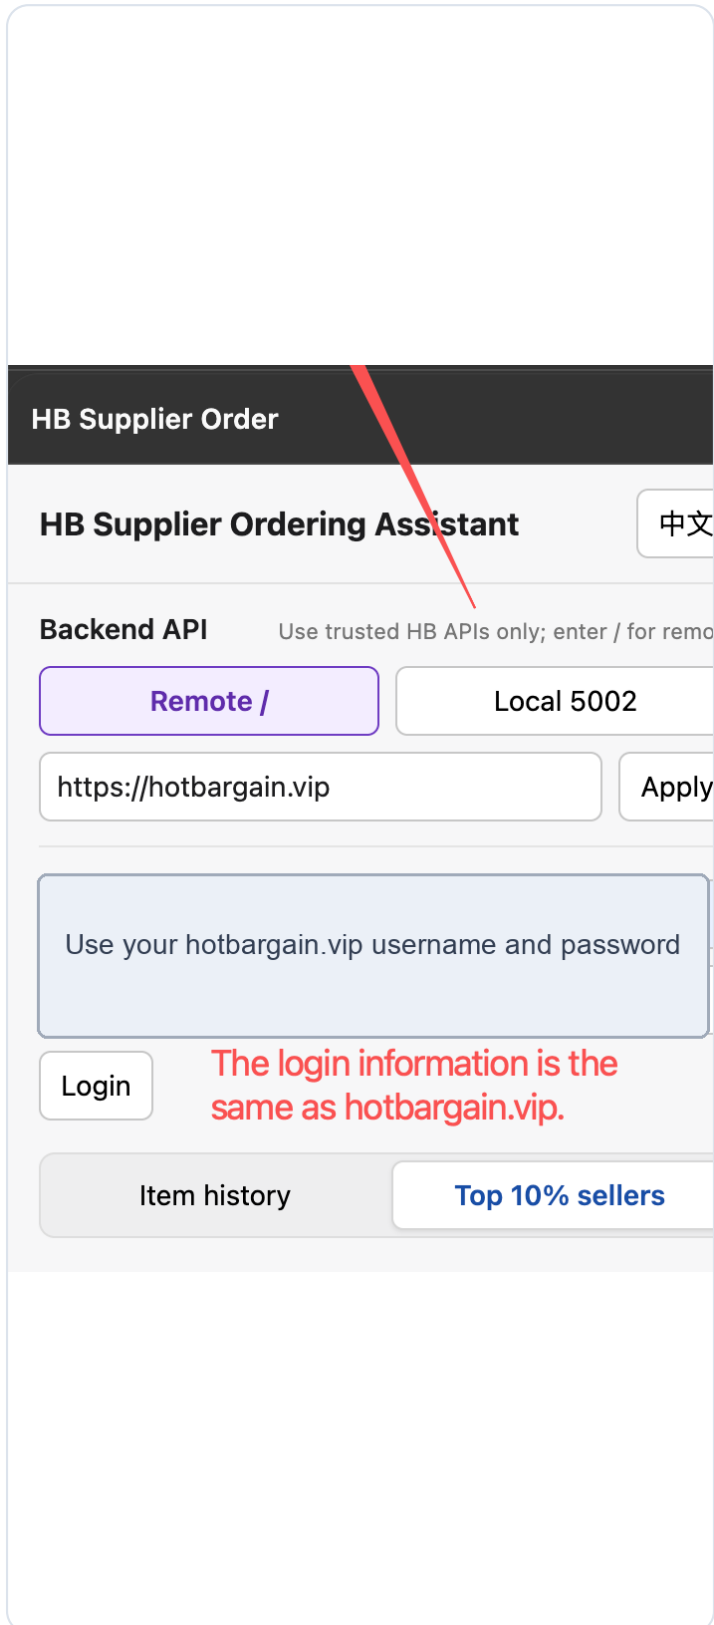

- Select the Extensions icon in the Edge toolbar.
- Find HB Supplier Order in the list.
- Select the pin icon. The orange HB icon will remain visible in the toolbar.

Browser language note

The screenshot shows a non-English Edge menu. The icons and the HB Supplier Order name are the same in every display language.

Sign in and select your store

Open the side panel from the orange HB icon. Keep the production connection selected.

The screenshot shows the 'HB Supplier Order' interface. At the top, there's a dark header with 'HB Supplier Order'. Below it, a light gray bar contains 'HB Supplier Ordering Assistant' and a '中文' button. The main section is titled 'Backend API' with a subtitle 'Use trusted HB APIs only; enter / for remo'. It features two buttons: 'Remote /' (highlighted with a red arrow) and 'Local 5002'. Below these is a text input field containing 'https://hotbargain.vip' and an 'Apply' button. A large light blue box contains the text 'Use your hotbargain.vip username and password'. Below this is a 'Login' button and a red text note: 'The login information is the same as hotbargain.vip.'. At the bottom, there are two buttons: 'Item history' and 'Top 10% sellers'.

1 Open the extension

Select the orange HB icon to open the HB Supplier Ordering Assistant side panel.

2 Keep Remote / selected

The address should be <https://hotbargain.vip>. Do not change Backend API settings unless authorised support asks you to.

3 Sign in

Use the same username and password that you use for hotbargain.vip.

4 Choose your store

Select the correct store from the Store list, then select Save.

5 Allow supplier access

When a supported supplier site requests permission, select Grant. Granted sites can be hidden or shown from the Supplier section.

Security reminder

Never share your password or include it in screenshots, email, or support messages.

Review item history

Open a supported supplier product list. The extension adds purchase and sales context beside matched products.

What the product card shows

- Last order date and quantity ordered.
- Sales to date for the selected store.
- No purchase when no matching order history is available.

Use the Item history panel

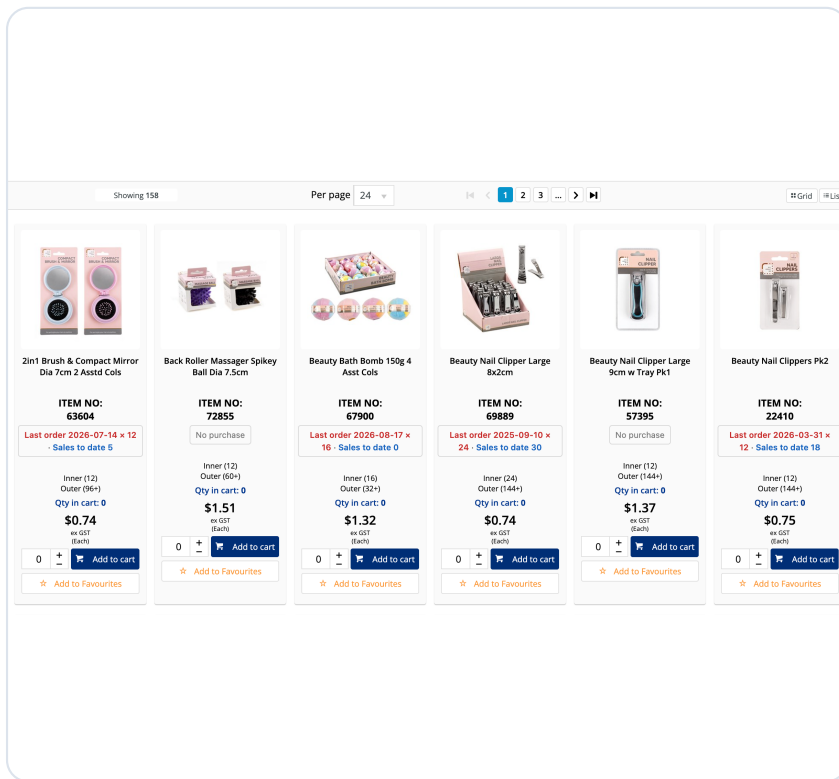

- Select the history control beside a supplier product.
- Use All, Order, or Sales to filter the timeline.
- Review dates, reference numbers, quantities, and average prices. Scroll horizontally if a column is outside the panel.

Match the correct item

Confirm the supplier item number on the product card before relying on the history shown in the side panel.

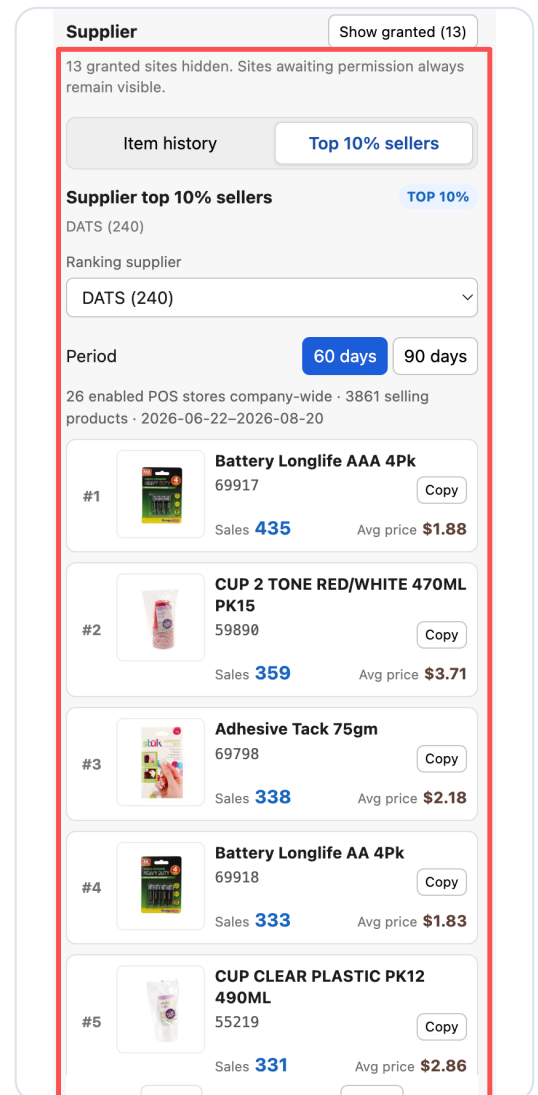

Find top-selling products

Use company-wide sales rankings to identify fast-moving products from the supplier you are viewing.

Top 10% sellers workflow

- Select the Top 10% sellers tab.
- Choose the supplier used for the ranking.
- Select a 60-day or 90-day period.
- Review rank, item number, sales quantity, and average selling price.
- Use Copy to copy an item number, and use Prev or Next to move between pages.

Quick troubleshooting

Not installed or timed out: Select Recheck. If it remains unavailable, reinstall from the Edge listing.

HB icon is missing: Open Extensions and pin HB Supplier Order.

Login fails: Confirm the same credentials work on hotbargain.vip. Do not change Backend API settings.

Store or supplier data is missing: Select and save the correct store, grant supplier access, and reopen a supported product list.

History or ranking is empty: Check the item number, selected supplier, selected period, and whether the store has matching POS data.
